

(1)
DUTY STATION FILE
(8/31/04)

OVERVIEW

A summary of changes to the duty station file is shown below. To find a duty station name or code online using OPM's Duty Station Locator System, go to the Duty Station File entry at <http://www.opm.gov/feddata/guidance.asp>.

Note that the Office of Personnel Management (OPM) is responsible for the duty station file. The General Services Administration (GSA) is responsible for maintenance of the code set and issuance of city codes. However, to ensure completeness of the OPM duty station code set, which is used to edit duty stations reported to the Central Personnel Data File (CPDF), requests for codes for personnel use should be directed to OPM (at 202-606-1162 or email address steve.goldstein@opm.gov) for processing by GSA.

Also, note that the foreign country, U.S. possession, and U.S. administered area names and codes are in compliance with Federal Information Processing Standards Publication 10-4 (Countries, Dependencies, Areas of Special Sovereignty, and Their Principal Administrative Divisions). The U.S. state names and codes are in compliance with Federal Information Processing Standards Publication 5-2 (Codes for the Identification of the States, the District of Columbia and Outlying Areas of the United States, and Associated Areas). The U.S. county names and codes are in compliance with Federal Information Processing Standards Publication 6-4 (Counties and Equivalent Entities of the United States, Its Possessions, and Associated Areas). These standards are published by the National Institute of Standards and Technology, Department of Commerce, and are available at <http://www.itl.nist.gov/fipspubs/by-num.htm>.
